

SikBao

Sprint 1 Plan

Team Name: SikBao
Release Name: SikBao
Completion Date: 04/24/2018
Version 1.0
4/13/2018

Product Owner: David Trang
Scrum Master: Kenji Mah
Developers: Brian Yee, Kiran Gurung, Michael Lee

Goal: For the sprint, we want the developer become familiar with the technology being used, especially the ReactJS library. At the same time, we want to design a user interface for the product

Task Listing, organized by user story:

- (13 pts) User Story 1: As a user, I want an easy to use page
 - Task 1: Research what it means to be an easy to use page (1 hour)
 - Task 2: Design a rough draft of UI design (2 hour).
 - Task 3: Receive feedback on the design (1 hour)
 - Task 4: Revise design with the given feedback (1 hour)
 - Total Hours = 5 hours
- (8 pts) User Story 2: As a developer, I want to have a plan for developing and implementing our UI for our future sprints.
 - Task 1: Break the design into smaller parts. (1 hour)
 - Task 2: Design steps for creating this design 1 hour)
 - Total Hours = 2 hours
- (5 pts) User Story 3: As a user, I want a UI that is aesthetically pleasing to the eye.
 - Task 1: Research the aesthetically pleasing designs (1 hour)
 - Task 2: Discuss in team to determine an aesthetic for the product (1 hour)
 - Task 3: Implement design into the previously UI design (2 hour)

Total Points: 26 pts

Team Roles:

1. David Trang: Product Owner
2. Kenji Mah: Scrum Master
3. Brian Yee: Developer
4. Kiran Gurung: Developer
