

SikBao

Sprint 1 Report

Team Name: SikBao

05/08/2018

Product Owner: David Trang

Scrum Master: Kiran Gurung

Developers: Brian Yee, Kenji Mah, Michael Lee

Actions to stop doing:

The team needs to stop having meetings so early in the morning because people are showing up late. To compromise, meetings will be pushed back to 11:00 am but will be kept on the same days.

Actions to start doing:

1. The scrum board needs to be checked and updated more often so that people know what tasks are available, but also so that there are no conflict between tasks.

Actions to keep doing:

1. Scrum meetings so far have perfect attendance and are constrained within the 15 minute range.
2. Communication via text is very good and should still be kept for issues that need immediate responses.

Work completed/not completed:

Completed:

- We have a deployable product that can store ingredients that goes through a filter of whitelisted ingredients.
- We have the basis of a user profile.

Not completed

- We still need to implement the quiz.
- We need to increase the number of recipes within firebase.

Work completion rate:

Total number of user stories completed = 3 stories

Total number of estimated work hours completed collectively as a team = 15 hours

Total number of days during the sprint = 14 days

Users Stories completed per day = 3/14 stories

Hours worked per day = 1-2 hours
